

**Junior Landscape Architect x 2**  
**Worcester**  
**£20,000 - £25,000 + Bonus + Benefits**

Boasting an impressive portfolio of successful projects for well-known clients across the UK and Overseas, we are excited to be working with this innovative, multi-disciplinary design practice.

You will be joining a friendly and vibrant team based from their Worcester office. This is a fantastic opportunity for a Junior Landscape Architect who is seeking exposure to a range of large-scale residential, mixed-use, urban regeneration and commercial projects, to develop and grow their career within an established team of talented professionals.

Due to continued growth, there is now an exciting opportunity for 2 junior level Landscape Architects to come on board! You will be given key exposure and responsibility from day one on projects for you to develop your own professional skills, thus becoming a valuable member of the team instantaneously!

The role will see you working across a varied workload and on projects of all sizes, both within the UK and Overseas. Assisting senior members of the team to run medium to large scale complex projects, you may be involved with project design work, specification and report writing, producing graphics through to attending meetings and general support for the Senior Landscape Architects.

An integral member of the team you will soon be taking responsibility for your own work streams within larger projects and naturally progressing into managing your own smaller projects for the practice.

The successful candidate will have a Post Graduate qualification in Landscape Architecture and will possess excellent working knowledge of AutoCAD, Sketch-up and Adobe Creative Suite packages. With a creative flair, you will be passionate about your industry and have a genuine desire to develop your career.

This opportunity would suit someone with 1-3 years' experience who is now looking to take their career to the next level.

In return, you will receive an attractive salary and benefits/rewards package including a generous bonus scheme. There is a clear route for progression along with lots of ongoing support and training for your progression. Not only that, but you will have a strong brand name behind you and the opportunity to work on some unique projects – your portfolio will be full of exciting and interesting work!

All applications will remain completely confidential between yourself and Donna Banks at JRR. You will not be added to any mailing lists and rest assured your details will NOT be passed on to anyone without your prior authorisation. If you are interested in this or any other Landscape Architecture opportunity, please give Donna a call on 0121 582 0877 or apply with your CV/Portfolio to this advert.
